STRUCK BY MINE

LONDON, Nov. 5.-The hospital ship Robilla, which was recently wrecked off the Yorkshire coast, with a large number of casualties, was struck by a mine and so badly injured that her captain was forced to run her onto the rocks to escape sinking at sea. Captain Wilson, the commander, gave testimeny to this effect at the inquest. This was the first hint the hospital ship had been struck by a mine. It had been generally understood the vessel merely got off her course near Whitby and was piled on the rocks.
